Company Profile

About Us

PT Wellracom Industri Komputindo is a Leading Company that engaged as a Distibutor Industrial PC, Industrial Automation and Industrial Process for Industrial Manufacturing Company since 2006

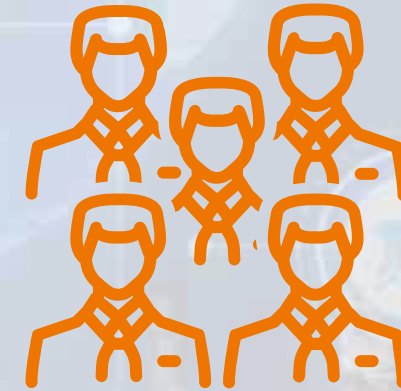

Wellracom will establish cooperation with Integrator companies which are service or device provider partners in the form of product end users. In fact, we are also building a business with buyers who need industrial PC products.

**Established
Since 2006**

**Vast experience in
Industrial PC and
Automation Solution**

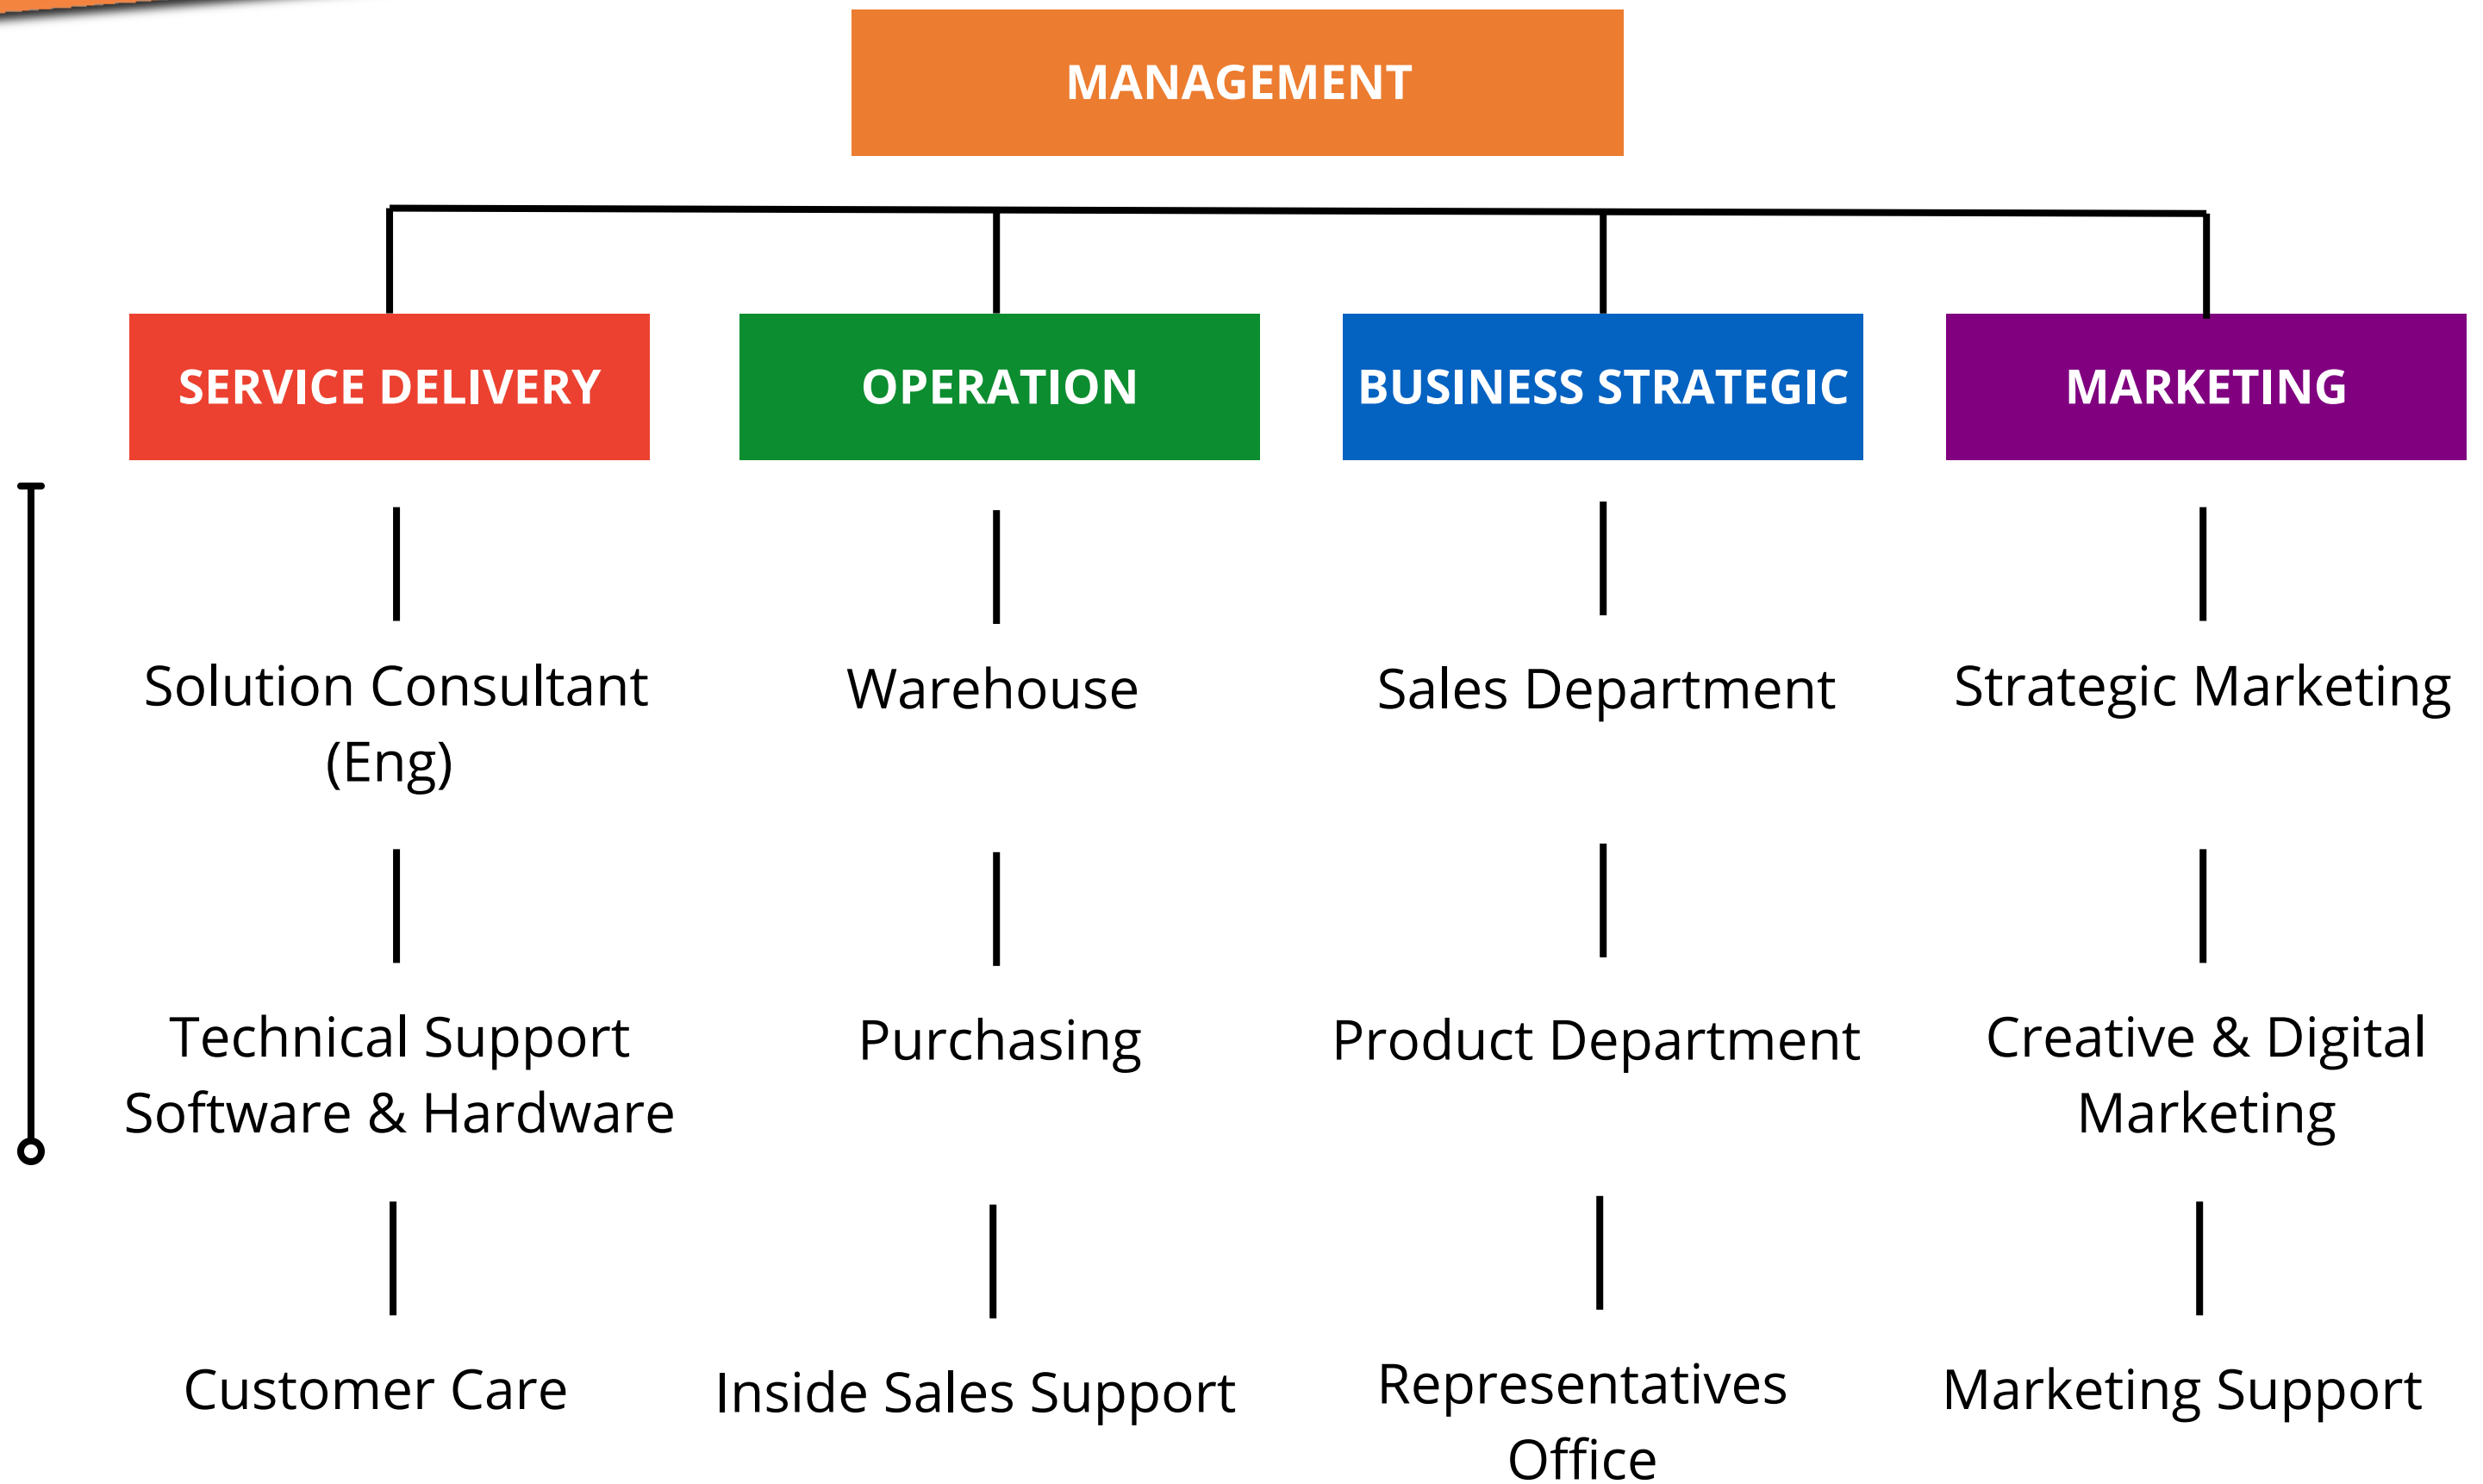

**50+ Employees &
Dedicated team of
staffs**

**Headquarter at
Kuningan, Jakarta
and Office
Representative at
Surabaya**

**Sales & Services
Support Structure**

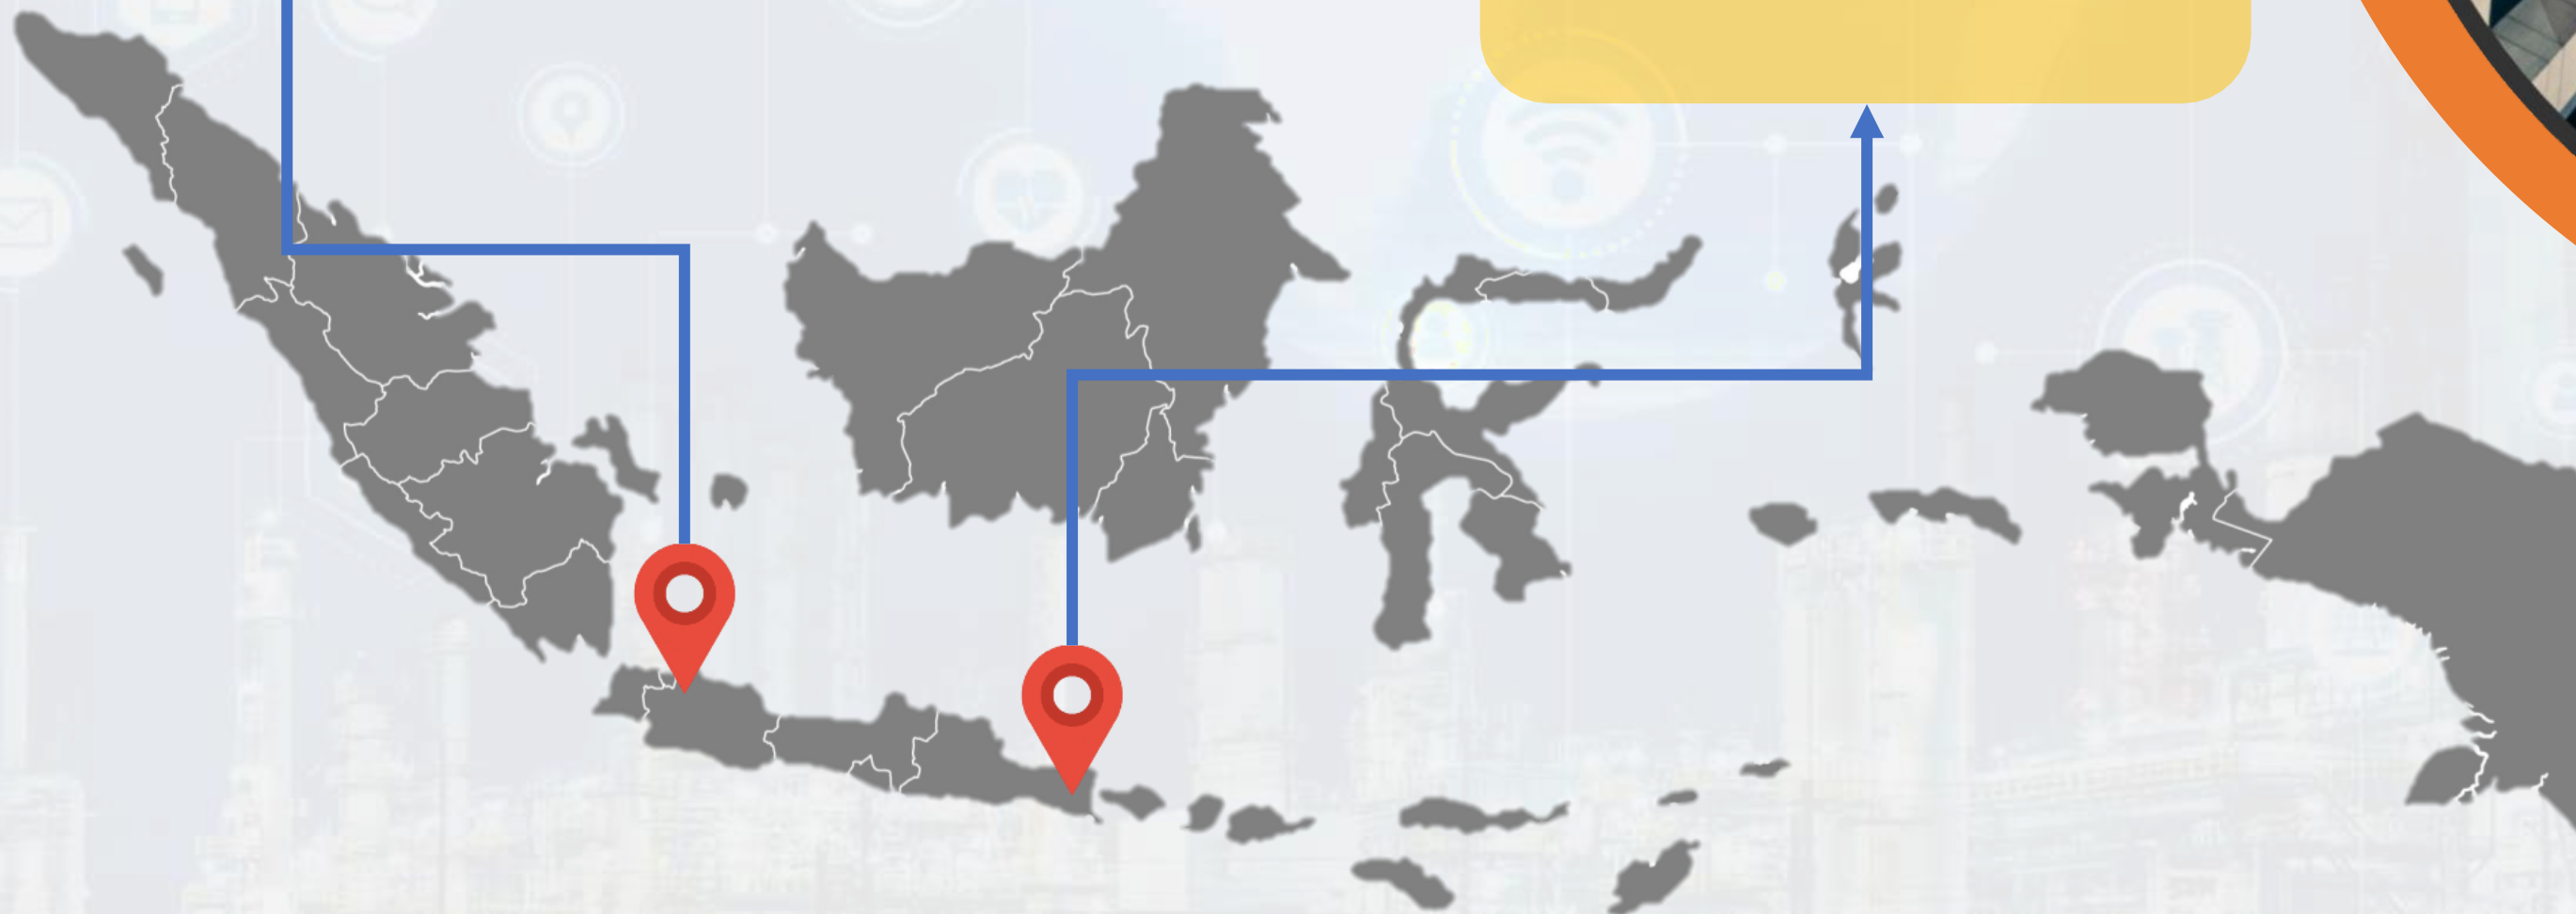

Wellracom Domestic Network & Representative Office

Internet Of Things

PT Wellracom Industri Komputindo was established in 2006, we provide Industrial PC, Fanless Embedded PC, Remote IO, IOT Gateway and Automation Solution

Distributor Product:

- Industrial PC
- Fanless Embedded PC
- Industrial Panel PC
- AI Computing
- Industrial Server

- IIOT Controller
- Industrial Protocol gateway
- I/O Module
- Industrial Networking
- SCADA System

- Industrial Data Recorder
- PID Controller
- Thyristor Controller
- Sinyal Conditioning Module

Features

- IP67-rated design for outdoor edge AI applications
- NVIDIA® Jetson Xavier™ NX with 384-core NVIDIA Volta™ GPU with 48 Tensor Cores
- High AI computing performance for GPU accelerated processing
- -30°C to +50°C operating temperature range
- 9 to 36 VDC wide range power input
- Features M12 lockable I/Os

Fanless

Features

- Intel Atom® x6212RE/x6414RE processor (Elkhart Lake)
- DDR4-3200 SO-DIMM, up to 32GB
- 2 GbE LAN, 2 2.5GbE LAN, and 2 SFP
- Wide operating temperature from -40°C to +70°C
- Wide power input of 9 to 36V DC with dual power input
- Supports 5G with M.2 Key B 3042/3052
- Supports TPM 2.0
- Ideal for OT field site cybersecurity and secured edge

**ICP
DAS**

ICP DAS, established in 1993, focuses on innovation and improving the industrial automation technology. With the widespread of internet and the extension of household and entertainment, it becomes a trend to integrate data acquisition, industrial control, and communication as one complete system. The embedded-control system has also become the focal point of research and application

Wireless Solution

SCADA

IIOT Controller

Industrial Communication

For connecting and exchanging data among various automation devices in industrial fields, ICP DAS provides a variety of different communication products to support widely used industrial communication protocols and interfaces.

Industrial Remote IO

Remote I/O Modules support a wide range of of field signals including current, voltage, thermistor, thermocouple, RTD, and strain gauge with many protocols and interfaces..

EtherNet/IP

WiFi

Industrial M2M Wireless Solution

Realizing the data acquisition, management and status monitoring by wireless network has become a promising approach in a vast range of industrial applications. Robust industrial wireless products supporting for ZigBee, Wi-Fi, 3G/4G/5G, Bluetooth, IR, LoRa, NB-IoT communication are offered.

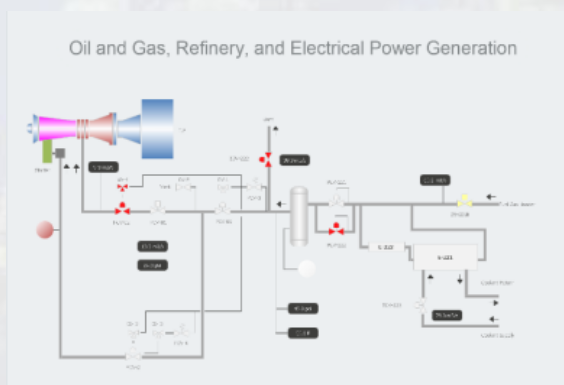

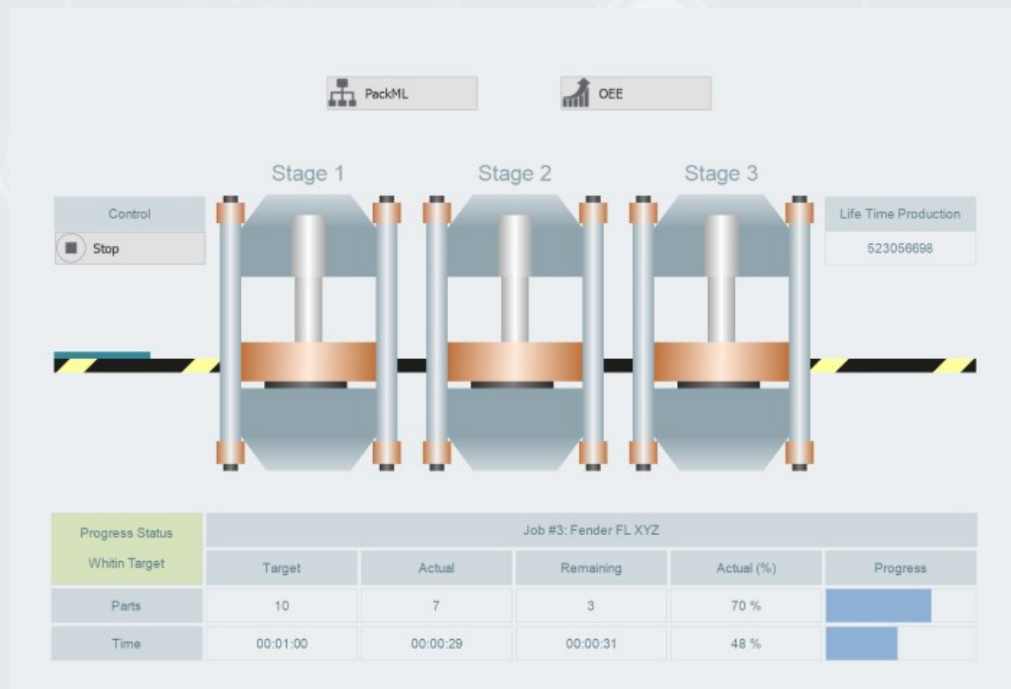

SCADA

AVEVA Edge is a comprehensive platform that includes all the tools you'll need to make SCADA and HMI applications that have real power behind them. The development environment allows you to develop once and deploy anywhere. AVEVA Edge supports all Windows runtime platforms (including 32 and 64 bit), ranging from Windows Embedded Compact, Windows Embedded Standard, Windows 8.1/10 and Windows Server Editions (Server 2012R2/2016/2019), along with built-in support for local or remote (web) based visualization.

Eurotherm

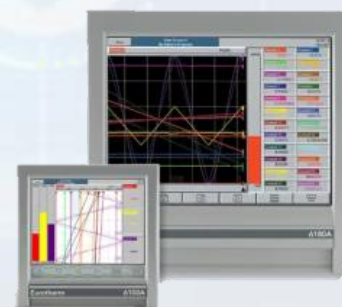

Eurotherm is a leading global supplier of control, measurement and data recording solutions and services to industrial and process customers

PID Controller

Power Controller

Paperless Graphic Recorder

Signal Conditioners

Eurotherm

PID Controller

Eurotherm has several types of thermocontrol or PID Controller with single loop or multi loop types and has optional boards for IO modules, communication modules and meets high manufacturing standards and high accuracy

Single Loop

Multiloop

Eurotherm

Power Controller

Eurotherm SCR Power Controllers are suitable for multiple applications, whether the load is constant or variable resistance, inductive or transformer coupled, single or three phase. The standard product line has current ratings up to 1800A, but application specific units can range up to several thousand amps with external driver options.

Eurotherm

Paperless Graphic Recorder

Paperless Graphic, Strip Chart and Circular Recorders

Ensure your precious process data is kept safe with our range of state-of-the-art recorders and data management software. Along with some of the best, proven recording and archiving strategies, Eurotherm recorders offer a wealth of functions including batch, audit trail, electronic signatures and remote viewing/operation – ensuring operational efficiency is optimised and enabling you to convert data into the information required to add value to a process.

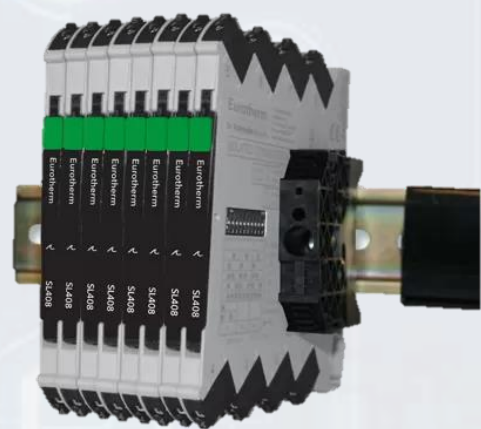

Eurotherm

Signal Conditioners

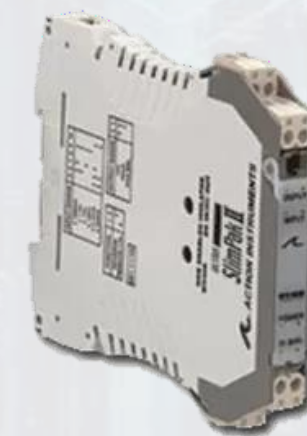

The complete range includes accessories and quality control products to ensure you get everything you need for a complete solution
